

How to... Support the development of independence and organisation skills

Speech, language and communication needs can make it difficult to:

- focus on tasks.
- understand spoken instructions.
- remember and order the steps of a task.

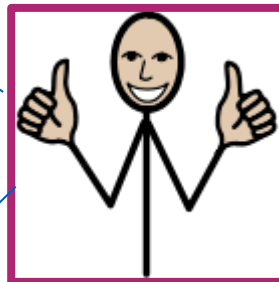

Here are a few ways we can help develop independence...

Physical organisation

- Organise Items
- Timers
- Templates
- Labels and Tape

Daily Schedule

Set up a daily schedule to show the individual what their day will look like and what is going to happen.

Mini Task Schedule

Show the student the steps of how to complete an activity on a mini schedule. Think of it like a recipe for the student so the student knows objects, photos and words.
