

Setting up a Communication Supportive Playground Environment to Support Social Skills within Context

Universal Strategies and Ideas to support SLCN

Bi-Borough SLT Levels of Support

The Bi-Borough School Aged Speech, Language and Communication Local Offer is provided through Central London Community Healthcare (CLCH) NHS Trust and the Bi-Borough Inclusion Service. The Whole System Approach works at a universal, targeted and specialist level, providing training and guidance to professionals and parents at all levels to identify and meet the needs of school aged children.

A child/young person may receive several packages from different levels at the same time, with specialist level interventions based on their need at a given moment in time.

**Supporting Social Skills within Context
Overview**

Children and Young People can require functional and naturalistic opportunities to practise their communication skills and / or make friendships.

Examples of this support includes:

- SLCN friendly lunch club
- Games club
- Structured Free Play
- Playground Buddy Schemes

Children and Young People can develop their confidence through being supported by other children and young people, via enrichment opportunities in school.

Children and Young People may also benefit from a communication supportive environment and adult strategies across classroom, playground, and other social settings.

**Creating a Communication Supportive
Playground Environment**

These resources can be used daily within playgrounds and outdoor settings. The audit can additionally be completed on an annual basis to ensure consistency over time.

What age range benefit from a Communication Supportive Playground Environment?

The strategies, ideas and activities within this pack have been developed for a range of children and young people ranging from Reception to Secondary School.

Resources should be selected based on the child and young person's profile.

- Participating in conversations with peers.

Which students would benefit from Social Skills supports?

Students who have differences with social interaction, who have expressed that they would like to develop their social skills.

How will supporting social skills in context support the students in the classroom and/or playground?

Developed social skills will help in many everyday situations, such as.

- Participating in discussions in the classroom.

Setting up a supportive playground environment	<ul style="list-style-type: none"> To consider whether current playgrounds are communication supportive environments. To learn strategies to implement within playgrounds to create a communication supportive environment. 	<p>From this Pack</p> <ul style="list-style-type: none"> Playground Communication Supportive Environment Checklist Pupil Voice Playground Communication Supportive Environment Checklist – KS1 Pupil Voice Playground Communication Supportive Environment Checklist – KS2 Playground Choosing Chat Board Playground Chat Board <p>From School</p> <ul style="list-style-type: none"> Outdoor clock Visual Timer (e.g. sand timer)

Setting up a supportive playground environment

Overview

Communication Supportive Environments (CSE) are often discussed in relation to the classroom, however, should also be considered in relation to the playground as well.

This pack will provide further information and considerations for setting up a CSE in the playground.

Having a CSE in the playground will support a child/young person's ability to:

- Make choices around what they would like to do at breaktime.
- Make choices around who they would like to interact with or whether they would like some time alone.
- Play and interact with peers within a structured game.

Resources

In this pack you will find:

- Playground Communication Supportive Environment Checklist
- Pupil Voice Playground Communication Supportive Environment Checklist
- Playground Choosing Chat Board Example
- Playground Chat Board

You may also need the following items from School:

- Outdoor clock
- Visual Timer (e.g. sand timer)

Key Considerations of a Communication Supportive Playground Environment

Area for Consideration	Rationale	Examples	Supportive Resources
Playgrounds have designated quiet spaces	<ul style="list-style-type: none"> Playgrounds could have places for social interaction as well as spaces where children may be alone in a quiet space. 	<p>This could include:</p> <ul style="list-style-type: none"> A bench. A fort. Grass area. Option to be in the library. 	
Playgrounds have structure	<ul style="list-style-type: none"> Playgrounds could have structure. 	<p>This could include:</p> <ul style="list-style-type: none"> Areas with different equipment (e.g. ball games, quiet reading area) Labels (as used in the classroom) 	
Structured games are available	<ul style="list-style-type: none"> Playgrounds could have opportunities for structured games. 	<p>This could include:</p> <ul style="list-style-type: none"> Having 1 or 2 main activities per week, which are rotated to avoid too many choices, which can be over-whelming, e.g.: <ul style="list-style-type: none"> Board Games Table Tennis Hopscotch Basketball 	
Clubs are available as an alternative to being in the playground	<ul style="list-style-type: none"> Clubs could be available. These could be run by a teacher or older students. 	<p>This could include:</p> <ul style="list-style-type: none"> Gardening Music Lego Chess
